Innovative Studies

FIRST OF ITS KIND OF THE INDUSTRY

Help to solve the desperateness of the plastic fibre contamination on which many of the other machinery are hopeless about.

Our bulk production lines incorporate 4 and a world unique 5 successively positioned laser sorters on each particular line. Line with 4 laser sorters has a new technology separation unit with a camera and a robotic arm.

Mechanical room is fully equipped with Ultraviolet disinfection system, Turbidex filter and Ultrafiltration units, which allows the vinefruit washing water to be filtered down to 1 micron.

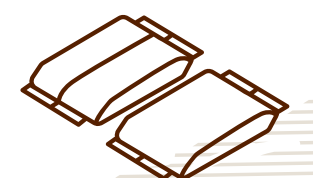

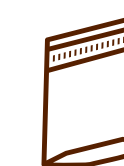

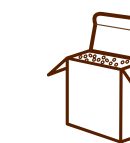

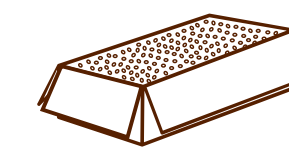

Quality Assurance

Özgür Foods, who pays most attention to quality of their products, has been awarded internationally recognized certificates such as BRC AA +, IFS Higher Level, Halal and Kosher. At the same time, it has an ECOCERT certificate in the production of organic grapes produced according to demand. Putting great emphasis on good manufacturing practices (GMP) & hazard analysis and critical control points (HACCP) with the approved quality we have been the approved suppliers of blue chip manufacturers and retailers since many years. Özgür Foods performs inhouse and outsourced hygiene, quality and customer requested analyses in laboratories, to ensure only the finest product is shipped to meet our customers' requirements.

- 2 maserator seed separator
- Magnet metal detector

- Manual sorting machine
- X-ray scanner

Chopped Dried Fruits *Product Lines*

Diced dried products find applications in breakfast cereals, muesli mixtures, chocolate, bakery items, fruit yogurt, and pastry products. Dimensions can be customized based on the area of usage and demand. Additionally, diced dried products can undergo extra drying in special ovens to achieve a more crunchy taste, as per demand. The muesli sector, in particular, presents an available target market for diced products.

In addition to cutting dried fruits such as Figs, Apricots, Natural Apricots, Prunes and Dates into diced, we can also produce diced products from pasted dried fruits using our innovative production techniques. All products undergo thorough quality checks, including metal and x-ray machine.

LITTLE THINGS
BIG DIFFERENCE
